

# MODULAR WASTE SEPARATION UNIT 60 LITRES

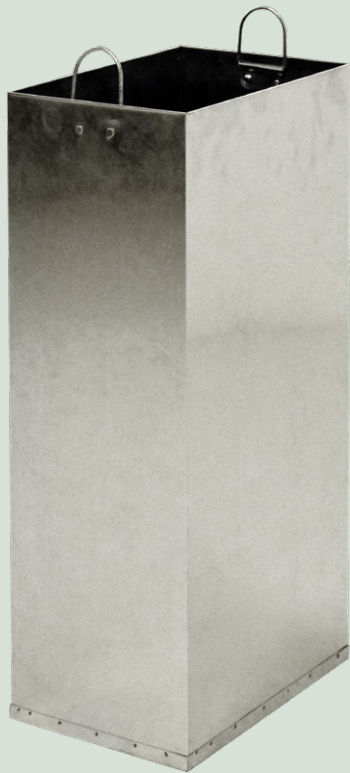

Capacity:	60.0 ltr	
Dimensions:	L 26.3, W 33.5, H 70 cm	
Colour:	Model:	Ref.nr.:
<input checked="" type="checkbox"/> dark grey	VB 191239	3119 1239
<input type="checkbox"/> white	VB 191246	3119 1246

Very solid modular waste bin made of powder-coated steel with bag holding brackets and adjustable legs. Includes connection material that allows multiple units to be linked together to create a waste separation station for multiple waste streams. Functional and robust. Favorable price-quality ratio. The waste bin is delivered without top. The top can be ordered separately and is available in different colors to distinguish the various waste streams. An inner liner is also optionally available.

### Inner liner modular waste separation unit 60 litres

Robust, galvanized inner liner for the 60 liter modular waste separation unit. Equipped with pull-out handles so that the inner liner can be easily lifted out of the waste bin.

### Top modular waste separation unit 60 litres

Solid top of powder-coated steel for the modular waste separation unit 60 liters. Available in different colors to distinguish the various waste streams. The top fits nicely into the unit, creating a nice waste separation station.

Colour:	Model:	Ref.nr.:
 blue	VB 191192	3119 1192
 dark grey	VB 191161	3119 1161
 green	VB 191215	3119 1215
 orange	VB 191222	3119 1222
 red	VB 191185	3119 1185
<input type="checkbox"/> white	VB 191178	3119 1178
 yellow	VB 191208	3119 1208

### Top with flap lid for modular waste separation unit

Solid top with powder coated steel flap lid to close off the modular waste separation unit. This keeps the waste out of sight and prevents unpleasant odors outside the unit. The cover with flap is equipped with a damping system that makes the valve close silently. The top falls nicely into the unit, creating a sleek waste separation station.
