The waste BIN made from your recycled plastic

## Circular BrickBin for Cups 65 litres

Sustainable waste bin from your recycled plastic to collect waste separately. Dutch production made from recycled plastic (HDPE) consisting of caps and packaging, which is produced by a rotational molding process. 100% circular.

The waste separation unit has a hinged lid with colored aluminum plate. Recycling stickers to indicate the different waste streams included.

- Plastic, Paper and Waste with opening (Ø 20 cm).
- Organic with valve lid (opening Ø 20 cm)
- Cups with colored aluminum plate with 5 holes (openings Ø 8 cm)

The integrated bag holding brackets make the waste bag easy to clamp. Optionally, a plastic screw set is available to link multiple bins into a waste separation station.

The Dutch manufacturer specializes in design products from recyclable materials, making it even possible to have customized waste bins produced from 'own' waste flows. For more information or personal contact, you can email to [verkoop@vepabins.nl](mailto:verkoop@vepabins.nl)
